DEPARTMENT OF INFORMATION SCIENCE & ENGINEERING

CERTIFICATE

This is to certify that the DBMS mini project report entitled **ONLINE EXAMINATION SYSTEM** has been successfully completed by **GANESH SHETTY & ARUN S** bearing USN **1RN16IS033 & 1RN17IS402** respectively, presently V semester student of **RNS Institute of Technology** in partial fulfilment of the requirements as a part of the DBMS Laboratory for the award of the degree **Bachelor of Engineering in Information Science and Engineering** under **Visvesvaraya Technological University, Belagavi** during academic year 2018 – 2019. It is certified that all corrections/suggestions indicated for Internal Assessment have been incorporated in the report deposited in the departmental library. The mini project report has been approved as it satisfies the academic requirements as a part of DBMS Laboratory for the said degree.

Abstract

Online examination system is a web-based examination system where examinations are given online. either through the internet or intranet using computer system. The main goal of this online examination system is to effectively evaluate the student thoroughly through a totally automated system that not only reduce the required time but also obtain fast and accurate results.

Online examination system is a software solution, which allows a particular company or institution to arrange conduct and manage examination via an online environment. This can be done through the internet, internet and/or local area network environments.

Some of the problems faced by manual examination system are delay in result processing, filing poses a problem, filtering of records is not easy, The chance of loss of records is high and also record searching is difficult. Maintenance of the system is also very difficult and takes lot of time and effort.

This project follows System Development Life Cycle to use the systems development life cycle (SDLC) which is a conceptual model used in project management that describes the stages involved in an information system development project.

ACKNOWLEDGMENT

The fulfilment and rapture that go with the fruitful finishing of any assignment would be inadequate without the specifying the people who made it conceivable, whose steady direction and support delegated the endeavours with success.

We would like to profoundly thank **Management of RNS Institute of Technology** for providing such a healthy environment to carry out this Project work.

We would like to thank our beloved Director **Dr. H N Shivashankar** for his confidence feeling words and support for providing facilities throughout the course.

We would like to express our thanks to the Principal **Dr. M K Venkatesha** for his support and inspired me towards the attainment of knowledge.

We wish to place on record our words of gratitude to **Dr. M V Sudhamani**, Professor and Head of the Department, Information Science and Engineering, for being the enzyme and master mind behind our Project work.

We would like to express our profound and cordial gratitude to our Lab incharge **Mr. R Rajkumar**, Assistant Professor, Department of Information Science and Engineering for his valuable guidance, constructive comments and continuous encouragement throughout the Project work.

We would like to express our profound and cordial gratitude to our guide and Lab incharge **Mrs. Kusuma S**, Assistant Professor, Department of Information Science and Engineering for her valuable guidance in preparing Project report.

We would like to thank all other teaching and non-teaching staff of Information Science & Engineering who have directly or indirectly helped me to carry out the project work.

And lastly, We would hereby acknowledge and thank our parents who have been a source of inspiration and also instrumental in carrying out this Project work.

GANESH SHETTY - 1RN16IS033

ARUN S – 1RN17IS402
